Subject: Request

The Cape Coral Historical Society/Museum has undertaken a project of video interviewing several very early residents of Cape Coral to preserve the history of the Cape.

We are now in need of a person capable of writing a one hour documentary to bring it all together.

At the suggestion of Bob Macomber, well known author and world traveler, I am inquiring if any member of your group would have the time and interest to help us with this community project.

Your reply with any suggestions certainly would be appreciated.

Paul W. Sanborn, President
Cape Coral Historical Society/Museum
